SUPPLEMENT TO
REPORT NO.

THIS IS UNEVALUATED INFORMATION

1.  The budget for research to be carried out by order of the DWK during the
    year 1950 covers the amount of DM 60,000,000. This amount is to be spent
    by the following Main Administrations as listed below:

25X1

25X1

| | |
|---|---|
| Chemistry | DM 8,500,000 |
| Light Industry | 4,000,000 |
| Coal | 4,000,000 |
| Metallurgy | 2,000,000 |
| Stones and Earth | 1,000,000 |
| Machine Construction and Electro Technique | about 30,000,000 |
| Energy | 1,500,000 |
| Agriculture and Forestry | 2,000,000 |
| Traffic | 500,000 |
| Food Industry | 500,000 |
| Construction Industry | 1,000,000 |
| Science and Technical Matters | 6,500,000 |

2.  This actually amounts to DM 61,500,000. No explanation can be given for
    the discrepancy of the two totals.

3.  It may be interesting to note that the Main Administration Science and
    Technical Development disposes directly of only about 10 percent of the
    entire budget. Many important projects will, therefore, be handled directly
    by the administrations concerned. Under the present setup, however, all
    research and development requests had to be approved by the Main Administration
    for Science and Technical Matters (Research and Development) even if the
    money came from another administration.
